

X-SENSE

Interconnectable optical smoke sensor

XS01-W

TECHNICAL SPECIFICATIONS

Siren Volume	85dB to 3 meter
Interconnection protocol	Link +
Maximum number of interconnected devices	24
Useful life	10 years
Transmission distance	Up to 250 m
RF signal power	10 mW
Frecuencia	869.25 ~ 869.3 MHz

GENERAL INFORMATION

Technology	Wireless
Type	Optical smoke sensor
Type of detection	Optical
Wi-Fi	No

AMBIENT

Operating temperature	4.4 °C ~ 37.8 °C
Use	Indoor
Maximum humidity	85%

DETECCIÓN (INCENDIO)

Protection area	20 ~ 40 m2
-----------------	-------------------

POWER CONSUMPTION

Power mode	Battery
Built in battery	Yes
Battery model	Non-replaceable lithium battery
Alarm Consumption	60mA

MATERIAL AND DIMENSIONS

Dimensions	78 x 78 x 48 mm
Net weight	90 g
Weight with packaging	130 g

SENSOR

Type of sensor	Fotoeléctrico
----------------	----------------------
